Last month the Geography Bee was held in the gym. Students were asked world geography questions that got harder each round. This was not easy.

**Meet our
winner:**

**GRAHAM
CARRICK**

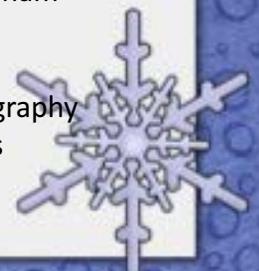

All participants were amazing!

Graham said the hardest question of the bee was the final question: What is the most populated but smallest country in South America?
Answer: Ecuador!

His favorite state is Arizona and a place he wants to go is Rio de Janerio, Brazil. Why Rio? "Because they have good steak," Graham says.

Graham attributes his geography knowledge to all the books he reads. Go Reading!

This year's Brookwood Spelling Bee is scheduled for Monday, February 12th at 9:20 am in the gym. More information will be coming.
