

Login At Home Help Sheet

This document includes instructions on how to use the various programs that are used within Canyons School District elementary schools. The purpose is to give directions to parents so they know what apps, usernames and passwords, and tools their students might be using at home.

- Teachers: Feel free to go to File>Make a Copy to make a version for your class. Then you can delete programs that you don't use in your class or write additional notes to parents about how you want students to be using this program at home. Feel free to print this or email the link to parents.
- Parents: These instructions *should* help you get started with the programs. Make sure to read the troubleshooting section at the bottom of each program for help. Note, not all schools and teachers use all of these programs. Make sure to ask your student's teacher on how to best use these programs.

Table of Contents: Click each link to go to the page with How To Directions.

CSDDocs

Website: csddocs.org (or gmail.com)
[Also used for Chromebook login]

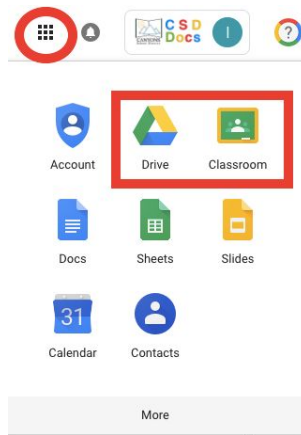

Purpose: Main district username and password and to create, store, and edit documents. Allows you to login to Clever.

Username: Student CSDDocs username
 (example: flas3456@csddocs.org)
 (for a student named First Last with a student number of 123456)
 First letter of first name, 3 letters of last name, last 4 numbers of student number

Password: Student CSDDocs password
 (example: tacofish4)
 (Default passwords are two four letter words and a number.)

Google Drive

1. Log in to csddocs.org.
2. Click waffle in top right corner to see options. Select Drive.

3. In Drive, students can click “New” to create new documents. You can also see all documents they have created in My Drive.

Google Classroom

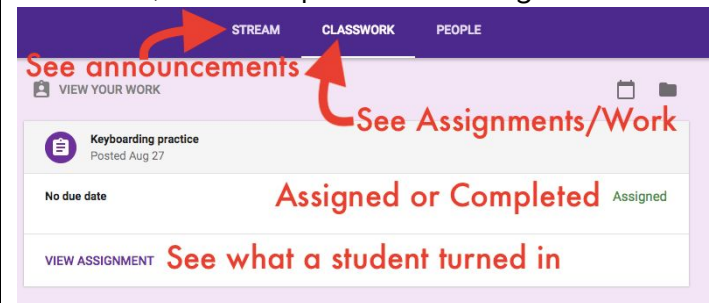

1. Log in to csddocs.org.
2. Click waffle in top right corner to see options. Select Classroom. .

3. Click on the class name (or add the Plus sign on the top bar and type in the code the teacher gave you).

4. Inside of Classroom you can see student work, due dates, and their portfolio of assignment.

Reminders/Troubleshooting:

- Log out of parental gmail accounts before a student tries to login with their google account.
- Ask your student’s teacher for observer access to Google Classroom.
- There are Google Drive and Google Classroom apps you can download to your iPad, but they work fine on a web browser too.
